

GROUP TUTORING - LET MOVE UNLOCK YOUR FULL POTENTIAL.

For most of us work life is pretty much the same day in and day out. Suddenly, another year has passed and we have barely noticed. For as long as nothing special happens, we rarely think about the state of things. Neither individually nor in the team or group. It is a pity because by reflecting on the business and everyday life together at our workplace we become more creative, secure and get more confidence in the group. With that comes focus, increased implementation power, and greater success. Something that benefits the entire organization. If you also let someone with the right skills group tutor you at the occasions when you reflect, anything can happen. This is where Move comes in.

PURPOSE AND CONTENT

Moves' group tutoring unlocks the group's full potential through discussions, exercises, and theories. Ventilating and discussing specific issues and themes that affect the situation in the workplace provide well-being and increased efficiency. The group also becomes more confident as the members get a clearer picture of the different parts of their business and how they interact with the group's work and the individuals' respective roles.

SCOPE

Everything that is said at the meetings is, of course, handled confidentially. If you need to

ventilate questions or ideas between meetings, then your Move consultant is available in reasonable time by telephone or mail. We also offer follow-up and support of your team via Teambook - our digital team development tool.

ABOUT MOVE

Move is the people-centered and value-driven consultancy company that make individuals, team, businesses, and organizations better by moving them to their desired state. We base everything we do in the belief that in every human being there are abilities, talents, and qualities that can spur the individual to make a real difference.
