

MOVE MANAGEMENT'S COACHING SUPERVISION -A WAY TO GROW PROFESSIONALLY

We all have abilities, talents and not least an inner force. If all the positive things we have inside can surface and is given free rein, anything can happen. It is often the starting point for a forward-looking process where entire organizations, in the long run, start to grow and develop. How, then, should we do to attract and release the powers? Coaching Supervision is an effective way. The difference between "regular" coaching and Coaching Supervision is mainly that one focuses on the third person/party and not on the person who is being coached. If you are an HR manager, the supervision of you can, for example, be about an employee, you yourself are having a conversation with and/or are coaching.

OUR COACHING SUPERVISION

Move's Coaching Supervision is an exclusive service where we have picked the benefits with traditional supervision and combined them with the latest methods and tools within coaching, leadership, communication, psychology, neurology, and behavioral science. The basis for our Coaching Supervision is Peter Hawkins's "seven-eyed supervision model". Every supervision session has a structure that gives you a clearer picture of the situation and you gain insight into how you can deal with the situation in a manner that is beneficial for your client. The conversation is always based on what you want to achieve; your intentions.

PURPOSE

The overall purpose with Move's Coaching supervision is to help you grow in your professional role in the interaction with others. To give you tools to better understand, manage and respond to behaviors, feelings, and reactions – both your own and others – and to be able to adapt your communication and your approach to what is optimal at any given moment. All this together will make you less stressed even in stressful situations; in short, you will have competence and continuous skills development that will give you an increasingly inner strength to meet external demands.

SCOPE

We offer Coaching Supervision to managers, managers, staff, individuals, and teams. The focus of the supervision and the scope of the guide is, of course, based on your or your needs and can be about, for example, situations, leadership, and processes and more. Examples of setups are six occasions (1.5 hours) during twelve months or six occasions during six months.

ABOUT MOVE

Move is the people-centered and value-driven consultancy company that make individuals, team, businesses, and organizations better by moving them to their desired state. We base everything we do in the belief that in every human being there are abilities, talents, and qualities that can spur the individual to make a real difference.
